Verse 1

If you're feeling tired and lonely,
Like a scared and lonely child,

Tossed adrift in a sea of tears
With no one there to calm your fears.

Chorus 1

If your back's up against the wall,
Just call my name,
By your side,

All you've got to do is give me a call.
and I'll be there,
Just call me to you.

Verse 2

If your troubles leave you in the dark,
Lost in a blizzard of broken dreams,

Shadowed from the light of day.
Frightened you will never find your way.

Chorus 2

You don't have to feel all alone,
Just call my number,
By your side.

All you've got to do is pick up the phone.
and I'll be there,
Just call me to you.

Bridge 1

When this world is getting you down,
Right there in your darkest night,
Yah,

And you feel like there's no one around.
I'll be there to hold you tight.
Just call me to you.

Verse 3

If you shiver from bitter cold,
If black clouds come rolling in,

I'll be a blanket to keep you warm
I'll be a shelter from the coming storm.

Chorus 3

When your heart starts feeling blue,
Just call my name,
By your side.

I'll come running right next to you.
and I'll be there,
Just call me to you.
