**Verse 1**

Some folks wishing for the old day.  
No matter how dark the clouds were.

Things were always better than.  
There was always sunshine in the end.

**Verse 2**

Seems the days are growing shorter.  
Always dreading what tomorrow might bring.

Nothing good around the bend.  
If they could do it all again.

**Chorus 1**

So it don't matter if the days slipped by.  
So when you wake up in the morning

You still got the ones ahead.  
Make it the best day of your life.

**Verse 3**

Remember Summers never ending.  
Now the Winters seem much colder.

Going back to school in Fall.  
And the wind blows on and on.

**Bridge**

Some would tell you its all over.  
So get up and start moving.

The die is cast and it's your fate.  
Time to give it hell it's never too late.

**Verse 4**

Looking at the path you've taken  
Feeling maybe you should change things.

How you got here you can't say.  
You've just got to find a way.
